The Humongous Books are typically 464 pages and contain 650 to 1,000 completed problems. They are designed to look like textbooks with problems and answers that have had handwritten notes added by a mentor, peer, or previous student who clarified the process, formula, and steps that went into solving the problem. The Humongous Book of SAT Math Problems takes a typical SAT study guide of solved math problems and provides easy-to-follow margin notes that add missing steps and simplify the solutions, thereby preparing students to solve all types of problems that appear in both levels of the SAT math exam.

about a test they have to take or how to interpret the score they receive.

; the relationships between testing program, training content and method, and utilization on the job are probed; and the methodology is explained by which the validity of the tests is established.

Analysis of measures of performance in job training programs and rating of job performance reveals that training performance is more satisfactory than job ratings for evaluating test effectiveness. How well tests predict performance in training programs and the relation between test scores and other indexes of success are examined separately for blacks and whites. Selection and classification tests are effective in identifying potential failures in Army training programs and for assigning men to jobs where their potential is best used and where they can best serve the Army. Aptitude test scores are useful indicators of the proficiency and grade a man can attain, of the time required to bring a trainee to a minimum level of performance, and in identifying general categories--men eligible for 0
