Krause Publications' Standard Catalog series is available by specific marque, in individual volumes or a set. Each book contains in-depth profiles of specific makes by model, factory photos, and up-to-date vehicle pricing. The 1-to-conditional pricing system assures readers of accurate values, whether a vehicle is a #1 low-mileage, rust-free beauty or a #6 parts-only heap. "Techs & specs", original factory prices, production and serial numbers, and engine/chassis codes are noted by model, thus helping you determine authenticity accuracy. Historical, technical and pricing information are combined from hundreds of sources. James Flammang values each model according to the popular 1-6 grading system invented by Old Cars magazine.

Surveys the systems, manufacturers and consultants within the global market. City by city, you can analyse and review both current operations and future plans. Provides traffic statistics, fleet lists and numbers in service. Provides contact details and background of approx. 1,500 manufacturers

There are things that exist that cannot be explained or comprehended. Creatures so terrifying that the human mind refuses to believe the possibility of existence. Romantism of evil can only get you so far-dead. The stories are there throughout history. The proof is not. At least...until now.I am Marko Delacroix, a Master Vampire, and I am not redeemable. Politics, power, greed. Nothing will stop me from getting what is rightfully mine. What I never saw coming was Tessa. She entrances me, calls to something that shouldn't be amongst the deadness inside of me. But even she won't get in my way.Twists, turns, death. It will soon mold the path that leads to my rightful spot on the throne. This world is mine, and I'll do anything to prove it. There's only one person who is destined to stop me.Hunter. His love for Tessa is supposed to be the end of my kind, but he doesn't know what I have planned. No one does.This is my story-my world-my rise to reign. Everyone wants to rule. Few are willing to sacrifice themselves to prove it.
