the story of Balinese culture through a history of Balinese music. First published in 1947, it tells the story of the writer and composer Colin McPhee's (1900 – 64) obsession with a music once unknown to the West, and of his journey to Bali to experience it firsthand. In 1929, the young Canadian – born musician chanced upon rare gramophone recordings of Balinese gamelan music which were to change his life forever. From that moment, he lived for the day when he could set foot on the island where the clear, metallic music originated. He was able to realize his dreams and spent almost a decade there during the 1930's. Music of Bali and dance, as McPhee discovered to his delight, are second nature to the Balinese, and his subsequent writings and compositions proved seminal in popularizing Balinese gamelan music in the West. In A House in Bali, McPhee unfolds a beguiling picture of a society long

established, staggeringly poor in Western terms, but rich beyond belief in spiritual values and joy. The young composer writes about his discoveries of music in Bali and growing understanding of an astonishing culture where the arts are a prime preoccupation, and of the arts, music is supreme. Much has been written on Bali, but this classic work from 1947 remains the only narrative by a Western musician.

Includes 39 photographs taken by the author during his time in Bali. A young American composer, quite by accident, heard some gramophone records of Balinese gamelan music that were to change his life completely. Such was his fascination that he ' wanted to hear every gamelan in the countryside ' . This book is an account of his stay in Bali just before the Pacific War. A House in Bali merits

republication because of its sympathetic and often amusing account of the author ' s involvement in Balinese society. While the author ' s musical interests take up a considerable part of the narrative, music was itself such an integral part of Balinese life that the reader gets an overall impression of life on the island. Much has been written on the art of Bali and by artists but this is the only narrative by a musician and stands in its own right as a worthwhile period piece.

architect Gianni Francione showcases the new generation of Bali-style homes, interiors, and artifacts that utilize what he terms a new internationalism. Even though the timeless, distinctive Balinese bale, open to a panorama of rice fields and the evening breeze, is still there, it may now be made in marble or stone. Similarly, present-day villas, resort bungalows, shops, restaurants, and other buildings are just as likely to use modernist techniques and materials as they are to utilize alang-alang and coconut wood. Bali Houses presents this new departure in architecture, interior design, glassware, table settings, textiles, furniture, and furnishings in many never-before-photographed locations. It is a fitting sequel to Bali Modern.

The Balinese gamelan, with its shimmering tones, breathless pace, and compelling musical language, has long captivated musicians, composers, artists, and travelers. Here, Michael Tenzer offers a comprehensive and durable study of this sophisticated musical tradition, focusing on the preeminent twentieth-century genre, gamelan gong kebyar. Combining the tools of the anthropologist, composer, music theorist, and performer, Tenzer moves fluidly between ethnography and technical discussions of musical composition and structure. In an approach as intricate as one might expect in studies of Western classical music, Tenzer's rigorous application of music theory and analysis to a non-Western
