Case Studies in Abnormal Psychology presents a broad range of cases drawn from the clinical experience of authors Kenneth N. Levy, Kristen M. Kelly, and William J. Ray to take readers beyond theory into real-life situations. The authors take a holistic approach by including multiple perspectives and considerations, apart from those of just the patient. Each chapter follows a consistent format: Presenting Problems and Client Description; Diagnosis and Case Formulation; Course of Treatment; Outcome and Prognosis/Treatment Follow-up; and Discussion Questions. Providing empirically supported treatments and long-term follow-up in many case studies gives students a deeper understanding of each psychopathology and the effects of treatment over time.

I started writing my book the first day that I started taking classes at College of the Canyons. I didn't write the book in printing, I wrote in my heart. The title of my book is My Graduation, because I finished the day I graduated. I took my first class in the spring semester of 1989, my final class in the spring semester of 2005. My book talks about my struggles to get an education while raising a family, as well as the nostalgia for my old country and my love for my new country. In my book, I invite people to read and write. I also want to send a message of love and hope for a better life. How I wish that every immigrant learns English as soon as they come to this country. How I wish that every woman would achieve a college education. Yes, it is hard, but not impossible. The young woman that came to this country, with a big desire of an education, finally did it.
