Performing Technology Organizations. Their last book, The DevOps Handbook, laid out a repeatable path for moving towards the DevOps value stream. I didn't know what expect from Accelerate, but I hoped the authors would delight me again.

Accelerate - The Science of Lean Software and DevOps Through four years of groundbreaking research, Dr. Nicole Forsgren, Jez Humble, and Gene Kim set out to find a way to measure software delivery performance—and what drives it—using rigorous statistical methods. This book presents both the findings and the science behind that research.
