up, extracting the common characters that form a vertical structure. It presents mobile sensing platforms and their applications toward interrelated paradigms, highlighting and briefly discussing different types of mobile sensing platforms and the functionalities they offer. It then looks at the naming, addressing, and profile services of CPS and proposes a middleware component to meet the requirements of dynamic applications and sensors/actuators deployment/configurations across different platforms. The middle chapters of the book present a context-aware sensor search, selection, and ranking model which addresses the challenge of efficiently selecting a subset of relevant sensors out of a large set of sensors with similar functionality and capabilities. The authors consider various topics in the energy management of CPS and propose a novel energy-efficient framework. They also present the fundamental networking technologies of CPS and focus on machine-to-machine communications for CPS, specifically the open technologies such as IPv6-based solutions that can be integrated into IoT and enable wireless sensor communications. In the book's final chapters, the authors bring you up to date on mobile cloud computing (MCC) research activities that enhance the capabilities of resource-constrained smart devices in CPS sensory environments. They also present a few representative CPS applications, including connected healthcare,

gaming in public transport crowds, and a series of MCC-enabled emerging CPS applications. You will find that these application fields fully demonstrate the great potential of applying CPS in public life.

In her bestselling books *Blue Gold* and *Blue Covenant*, world-renowned water activist Maude Barlow exposed the battle for ownership of our dwindling water supply and the emergence of an international, grassroots-led movement to reclaim water as a public good. Since then, the United Nations has recognized access to water as a basic human right—but there is still much work to be done to stem this growing crisis. In this major new book, Barlow draws on her extensive experience and

insight to lay out a set of key principles that show the way forward to what she calls a “water-secure and water-just world.” Not only does she reveal the powerful players even now impeding the recognition of the human right to water, she argues that water must not become a commodity to be bought and sold on the open market. Focusing on solutions, she includes stories of struggle and resistance from marginalized communities, as well as government policies that work for both people and the planet. At a time when climate change has moved to the top of the national agenda and when the stage is being set for unprecedented drought, mass starvation, and the migration of millions of refugees in search of water, *Blue Future* is an urgent call to preserve our most valuable resource for generations to come.

Christian parents have a responsibility to make sure their children know and love God's Word. But what if you struggle as a parent to read the Bible yourself. How can you pass a love for God's Word along to your children if you struggle with it yourself? That was Carrie Ward's story. Until God gave her a plan to help her develop a consistent time in the Word, right along with her children. Readers will walk together with Carrie Ward, an everyday mama, as she journeys through the Bible with her small children one chapter a day. As her children re-enact the Bible stories readers will be able to see Scripture through the eyes of a child. Parents will learn how to impart God's truth to their children day by day, and will see its transformative power on their families. Together: Growing Appetites for God is an easy read and includes helpful tools for scripture memorization and charts to follow progress through the Bible. A True Woman Book The goal of the True Woman publishing line is to encourage women to: Discover, embrace, and delight in God's divine design and mission for their lives Reflect the beauty and heart of Jesus Christ to their world Intentionally pass the baton of Truth on to the next

The date is 4 Jaguar 1 Monkey 1 House; November 25th 2012, by the old reckoning. The Aztec Empire rules the world, in the name of Quetzalcoatl - the Feathered Serpent - and his brother gods. The Aztec reign is one of cruel and ruthless oppression, fuelled by regular human sacrifice. In the jungle-infested city of London, one man defies them: the masked vigilante known as the Conquistador. Then the Conquistador is recruited to spearhead an uprising, and discovers the terrible truth about the Aztecs and their gods. The clock is ticking. Apocalypse looms, unless the Conquistador can help assassinate the mysterious, immortal Aztec emperor, the Great Speaker. But his mission is complicated by Mal Vaughn, a police detective who is on his trail, determined to bring him to justice.
