This section of the manual deals with an "ideal" scenario, in terms of the assignment of external computer peripherals to operate the X-Plane King Air C90B with the highest degree of realism. If you are missing some of these external peripherals, you may elect to choose a different configuration that best suits your hardware.

X-Plane 11

Getting started ComPilot Air II must be set up and charged before use. 3.2 Charging the battery 3.1 Setting up the power supply J Plug the larger end of the charging cable into the universal power supply. Plug the smaller end into the Select the adapter that corresponds to your country. Page 6:
