For The Past 30 Years, Amma Has Dedicated Her Life To The Uplift Of Suffering Humanity Through The Simplest Of Gestures, An Embrace. In This Intimate Manner, Amma Has Blessed And Consoled More Than 30 Million People Throughout The World. Wherever She Travels, Be It In India, America Or Europe, Thousands Flock To See Her. They Seek Her Boundless Love And Compassion, Her Comfort And Her Advice. This Book Is A Collection Of Amma's Answers To Questions Asked During Her Programs In The West Since 1999. Some Were Put To Her In A Formal Setting, But Most Were Asked As She Was Giving Darshan, By Those Sitting At Her Side And Those Resting In Her Arms. Here, Amma Speaks On A Vast Range Of Topics, Including The Nature Of Birth And Death, Worldly Relationships, War And Peace, And Spiritual Practices And Philosophy. No Matter The Question, Amma Answers In Her Own Inimitable Earthy Style, Full Of The Love Of A Mother And The Wisdom Of A True Spiritual Master. She Presents The Most Esoteric Of Spiritual Truths In A Manner So Simple That Even A Child Could Understand. Published By The Disciples Of Mata Amritanandamayi Devi, Affectionately Known As Mother, Or Amma The Hugging Saint.

First Published in 1999. Routledge is an imprint of Taylor & Francis, an informa company.

This is an introduction to linear algebra. The main part of the book features row operations and everything is done in terms of the row reduced echelon form and specific algorithms. At the end, the more abstract notions of vector spaces and linear transformations on vector spaces are presented. However, this is intended to be a first course in linear algebra for students who are sophomores or juniors who have had a course in one variable calculus and a reasonable background in college algebra. I have given complete proofs of all the fundamental ideas, but some topics such as Markov matrices are not complete in this book but receive a plausible introduction. The book contains a complete treatment of determinants and a simple proof of the Cayley Hamilton theorem although these are optional topics. The Jordan form is presented as an appendix. I see this theorem as the beginning of more advanced topics in linear algebra and not really part of a beginning linear algebra course. There are extensions of many of the topics of this book in my on line book. I have also not emphasized that linear algebra can be carried out with any field although there is an optional section on this topic, most of the book being devoted to either the real numbers or the complex numbers. It seems to me this is a reasonable specialization for a first course in linear algebra.

Poetry. This short sequence makes use of fifteen single-syllable words: firm, for, form, free, from, in, is, it, of, our, than, that, the, then, this. These words are ordered and clustered variously as means to explore their rhythmic and sound properties. The text is also an attempt to wrestle with sense when the language field is moderately constrained. Go ahead and judge this book in the unadvised manner--the entire text appears, in miniature, on the cover.

"Roads" is a poetic rendezvous that takes the reader on a panoramic journey, making one pause, ponder and celebrate life. The book is a light, alluring read that instantly strikes a chord and elevates one's spirits. A trove of 60 poems, it is quilled with beads of nine virtues: Courage, Wisdom, Serenity, Love, Hope, Strength, Joy, Compassion and Gratitude. The verses encapsulate life's ebbs and flows while prompting the reader to enjoy its simple pleasures. "Roads" is a book that you would want to keep on your bedside, for a quiet read

before retiring for the night or for the morning wisdom to seize the day. With poems revolving around emotions that each of us experiences, "Roads" very easily develops a personal connect with the reader that is defiantly refreshing. "Roads" is a journey with verses. Take it on yours.

An original collection of incandescent cultural criticism, both experimental and personal, full of pragmatic advice for how to live a considered, joyful existence in our era of screen living and hipster irony, by a Gen-X Princeton professor and contributor to The New York Times The essays in The Other Serious examine the signature phenomena of our moment: the way our lives contradict themselves, how exaggeration and excess seep into our collective subconscious, why gender is becoming more rather than less complicated, and how we interact with the material things that surround us. It is a book about the delicacy and bluntness of American life, about how pop culture sticks its finger deeply into the ethical dilemmas of our time, and how to negotiate between the old and the new, the high and the low, the global and the local, the sacred and the profane. At the heart of these reflections lies a central question: What should you do when you don't know what to do? Taken together, these essays comprise a guide for the overhaul of "the administriversity" of contemporary American life, a bureaucratic prison where the brain needn't work anymore. These pieces investigate the writer's own way of thinking—putting forth new ideas, questioning them, and urging the reader to adopt the same spirit of critical reexamination.

A beloved adventure classic, The Swiss Family Robinson is a tale of courage in the face of the unknown that has endured the test of time. Trapped on a remote island after a storm leaves them shipwrecked, a Swiss pastor, his wife, and their four sons must pull together if they want to survive. Hunting, farming, and exploring a strange land for the first time, each son not only tests his own bravery, but discovers a skill all his own as they each adapt to this new, wild place. Full of wonder, revelation, and invention, this timeless adventure story has sparked imaginations of readers young and old for generations. Featuring an appendix of discussion questions, this Diversion Classics edition is ideal for use in book groups and classrooms.
