"The American Meteorological Society Education Program"--T.p. verso.

Online Ocean Studies, a new component of the AMS education initiative, is an introductory undergraduate oceanography course offered partially via the Internet in partnership with college and university faculty. Online Ocean Studies provides students with a comprehensive study of the principles of oceanography while simultaneously providing pedagogically appropriate investigations and applications focusing on web-delivered real-world ocean data. It provides experiences that demonstrate the value of computers and electronic access to time-sensitive data and information.

Available now to FDA-regulated organizations, this manual allows facility managers to look at their operation's regulatory compliance through the eyes of the government. Because this is the primary reference manual used by FDA personnel to conduct field investigation activities, you can feel confident you are preparing appropriate planning or action. This manual includes revised instructions regarding the release of information and covers FDA's policies and expectations on a comprehensive range of topics: FDA's authority to enter and inspect, inspection notification, detailed inspection procedures, recall monitoring, inspecting import procedures, computerized data requests, federal/state inspection relationships, discussions with management regarding privileged information, seizure and prosecution, HACCP, bioengineered food, dietary supplements, cosmetics, bioterrorism, and product disposition. The manual also includes a directory of Office of Regulatory Affairs offices and divisions.
