The needs of children and parents about play when the child has a disability are explored by mean on surveys to disability associations and families were collected during 2016 in 30 countries by members of the EU COST LUDI network Play for children with disability. The users' needs concerning play for children with disabilities are also explored by mean of case studies at a country level, based on literature reviews of avialable reports and emprirical studies in Finland, Lithuania and Sweden.

Every day companies leave billions of dollars in invisible, unrealized savings on the table because of poor supply chain management practices. Now supply management experts Dave Nelson, Patricia E. Moody, and Jonathan Stegner show not only how leading companies recoup these savings through their mastery of target costing, value engineering, and supplier development, but how supply chain management -- the discipline of acquiring and moving material -- has become a manufacturing company's hottest competitive weapon. Based on a survey of 247 purchasing managers and more than 1,000 hours of interviews and on-site visits, the authors have selected ten top firms whose supply management pioneers excel at twenty "best practices." With cases and stories, Nelson, Moody, and Stegner show how these leading-edge purchasing departments at American Express, SmithKline Beecham, DaimlerChrysler, Harley-Davidson, Honda of America, IBM, John Deere, Whirlpool, Flextronics, and Sun Microsystems have put into place pathbreaking processes and procedures. Here, for example, described in step-by-step detail, are Chrysler's SCORE program and Honda's strategic sourcing strategy that saved the companies billions. The book also includes a crucial section on the next stage of supplier development that will involve the sourcing and allocation of ideas as well as materials. The authors provide concrete, practical steps to improvement that any supply chain manager can take to successfully implement these best practices. The Purchasing Machine will be required reading for logistics, purchasing, and procurement managers in hundreds of thousands of companies. The authoritative

The book provides thoroughly updated Current Affairs section.

America's most famous business reporter gives her unique perspective on the white-knuckle weekend that brought the financial world to its knees. During a single historic weekend (September 12-14, 2008) the fate of Lehman Brothers was sealed, Merrill Lynch barely survived, and AIG became a ward of the federal government. Top CNBC anchor Maria Bartiromo spent the entire weekend taking frantic phone calls from the most powerful players on Wall Street and in Washington, as they toiled to keep the economy from complete collapse. Those CEOs and dozens of other sources gave Bartiromo behind-the-scenes details unavailable to other members of the media, of the crisis and its aftermath. Now she draws on her high-level network to provide an eyewitness account of the biggest events of the financial crisis including at length interviews with former treasury secretary Henry Paulson, former AIG chairman Hank Greenberg, former Merrill Lynch CEO John Thain, and JP Morgan CEO Jamie Dimon, among many others. Writing with both authority and dramatic flair, Bartiromo weaves a thrilling narrative that will make news. She also tackles the big questions: how did an unmatched period of market euphoria and growth turn sour, catapulting the economy into a dangerous slide? And in the long run, how will the near-catastrophe really change Wall Street?
