enrich the teaching of history and social science, enliven instruction for every student, focus on essential topics, and help make learning more memorable. Experiences and contributions of ethnic groups and women in history are integrated in this course model. The framework is divided into 11 units: (1) Connecting with Past Learnings: Uncovering the Remote Past; (2) Connecting with Past Learnings: the Fall of Rome; (3) Growth of Islam; (4) African States in the Middle Ages and Early Modern Times; (5) Civilizations of the Americas; (6) China; (7) Japan; (8) Medieval Societies: Europe and Japan; (9) Europe During the Renaissance, the Reformation, and the Scientific Revolution; (10) Early Modern Europe: The Age of Exploration to the Enlightenment; and (11) Linking Past to Present. the framework's 7th grade course description are developed in these course models. All units follow the same format. Each begins with a rationale and overview. Ways are suggested for teachers to coordinate the model with the state-adopted textbook for 7th grade. A presentation of activities to introduce and continue the sample topic are suggested to encourage students to apply what they have studied through projects. Each unit ends with an extensive annotated list of sample resources. (DK)

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them?

The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first,

The American Crisis is a collection of articles by Thomas Paine, originally published from December 1776 to December 1783, that focus on rallying Americans during the worst years of the Revolutionary War. Paine used his deistic beliefs to galvanize the revolutionaries, for example by claiming that the British are trying to assume the powers of God and that God would support the American colonists. These articles were so influential that others began to adopt some of their more stirring phrases, catapulting them into the cultural consciousness; for example, the opening line of the first Crisis, which reads “These are the times that try men’s souls.” This book is part of the Standard Ebooks project,

J. M. Adovasio has spent the last thirty years at the center of one of our most fiery scientific debates: Who were the first humans in the Americas, and how and when did they get there? At its heart, *The First Americans* is the story of the revolution in thinking that Adovasio and his fellow archaeologists have brought about, and the firestorm it has ignited. As he writes, "The work of lifetimes has been put at risk, reputations have been damaged, an astounding amount of silliness and even profound stupidity has been taken as serious thought, and always lurking in the background of all the argumentation and gnashing of tenets has been the question of whether the field of archaeology can ever be
