The fallacy that AP Environmental Science is the "easy AP science exam" continues; it has the lowest scores of any AP science exam. Too many students take AP Environmental Science without taking the pre-requisites of a standard biology and standard chemistry course first. Results declined this year, dropping below 50% of students earning 3,4,5s.

REA's Crash Course for the AP* Chemistry Exam - Gets You a Higher Advanced Placement* Score in Less Time Completely Revised for the New 2014 Exam! Crash Course is perfect for the time-crunched student, the last-minute studier, or anyone who wants a refresher on the subject. Are you crunched for time? Have you started studying for your Advanced Placement* Chemistry exam yet? How will you memorize everything you need to know before the test? Do you wish there was a fast and easy way to study for the exam AND boost your score? If this sounds like you, don't panic. REA's Crash Course for AP* Chemistry is just what you need. Our Crash Course gives you: Targeted, Focused Review - Study Only What You Need to Know Fully revised for the 2014 AP* Chemistry exam, this Crash Course is based on an in-depth analysis of the revised AP* Chemistry course description outline and sample AP* test questions. It covers only the information tested on the new exam, so you can make the most of your valuable study time. Our targeted review focuses on the Big Ideas that will be covered on the exam. Explanations of the AP* Chemistry Labs are also included. Expert Test-taking Strategies This Crash Course presents detailed, question-level strategies for answering both the multiple-choice and essay questions. By following this advice, you can boost your score in every section of the test. Take REA's Online Practice Exam After studying the material in the Crash Course, go to the online REA Study Center and test what you've learned. Our practice exam features timed testing, detailed explanations of answers, and automatic scoring analysis. The exam is balanced to include every topic and type of question found on the actual AP* exam, so you know you're studying the smart way. Whether you're cramming for the test at the last minute, looking for extra review, or want to study on your own in preparation for the exams - this is the study guide every AP* Chemistry student must have. When it's crucial crunch time and your Advanced Placement* exam is just around the corner, you need REA's Crash Course for AP* Chemistry!

Organized for easy reference and crucial practice, coverage of all the essential topics presented as 500 AP-style questions with detailed answer explanations 5 Steps to a 5: 500 AP World History Questions to Know by Test Day is tailored to meet your study needs--whether you've left it to the last minute to prepare or you have been studying for months. You will benefit from going over the questions written to parallel the topic, format, and degree of difficulty of the questions contained in the AP exam, accompanied by answers with comprehensive explanations. Features: 500 AP-style questions and answers referenced to core AP materials Review explanations for right and wrong answers Additional online practice Close simulations of the real AP exams Updated material reflects the latest tests Online practice exercises

Provides test-taking strategies, key terms, a subject review, and two full-length practice tests.

If you need to know it, it's in this book!
