This Handbook is designed to assist Army Commanders in taking proper immediate action when faced with a variety of legal issues that might arise during your command. The purpose of your actions should be to preserve the legal situation until you can consult with your servicing Judge Advocate. However, like most aspects of your command responsibilities, you can fail if you just wait for things to come to you. You need to be proactive in preventing problems before they occur. In the legal arena, this means establishing and enforcing high standards, ensuring your Soldiers are fully aware of those standards and properly trained to comply with them. You must also properly train your Soldiers on all Army policies and higher level command standards so that they also understand and comply with them. Soldiers must also be well-versed in the Army Values and be able to apply those values to real- world situations, which will usually keep them well within legal bounds.

ADP 6-22 describes enduring concepts of leadership through the core competencies and attributes required of leaders of all cohorts and all organizations, regardless of mission or setting. These principles reflect decades of experience and validated scientific knowledge. An ideal Army leader serves as a role model through strong intellect, physical presence, professional competence, and moral character. An Army leader is able and willing to act decisively, within superior leaders' intent and purpose, and in the organization's best interests. Army leaders recognize that organizations, built on mutual trust and confidence, accomplish missions. Every member of the Army, military or civilian, is part of a team and functions in the role of leader and subordinate. Being a good subordinate is part of being an effective leader. Leaders do not just lead subordinates—they also lead other leaders. Leaders are not limited to just those designated by position, rank, or authority.

World war-global war-was still to come. This second volume of the new edition takes up that story and extends it into the twenty-first century and the early years of the war on terrorism. American Military History provides the United States Army—in particular, its young officers, NCOs, and cadets—with a comprehensive but brief account of its past. The Center of Military History first published this work in 1956 as a textbook for senior ROTC courses. Since then it has gone through a number of updates and revisions, but the primary intent has remained the same. Support for military history education has always been a principal mission of the Center, and this new edition of an invaluable history furthers that purpose. The history of an active organization tends to expand rapidly as the organization grows larger and more complex. The period since the Vietnam War, at which point the most recent edition ended, has been a significant one for the Army, a busy period of expanding roles and missions and of fundamental organizational changes. In particular, the explosion of missions and deployments since 11 September 2001 has necessitated the creation of additional, open-ended chapters in the story of the U.S. Army in action.

Out in Front is a collection of outrageous and outlandish stories of leadership challenges that CPT Hepler and his Command Team encountered during his time as the Commander of the 13th Military Police Detachment at Schofield Barracks, Hawaii. Each insane story describes a detailed sequence of events and how CPT Hepler and his Command Team addressed it. These are real stories, real people and real issues that are too crazy to fiction. The names have been changed to protect their privacy but each situation described within these pages really happened. As you read each story, determine what you, as a leader, would do and why. In doing so, you will come to one of three different conclusions; 1) you agree with my course of action 2) disagree with my course of action or 3) not sure what you would do. No matter which one you arrive at, each situation will force you to think critically and reflect internally on your leadership style and ultimately solidify who you are as a leader. Anybody, Soldier or not, that is placed in any kind of leadership position, this book is for you. Please remember

that your success depends on your subordinates and they will suffer for your failures and/or shortcomings. Don't let them down.
