Parents need to know that Eoin Colfer 's The Lost Colony is the fifth book in the Artemis Fowl series. With its time travel theme, it will remind readers of Colfer's popular W.A.R.P. trilogy that came after this series. HAS CRIMINAL MASTERMIND ARTEMIS FOWL MET HIS MATCH? Until recently Artemis Fowl was the only human to have discovered that fairies do exist. But now a second juvenile genius wants to capture one for scientific study - and not just any old fairy. The newcomer intends to trap a demon, the most human-hating species unknown to man. Only an ancient time spell separates the demons from mankind - and Artemis must prevent it from unravelling. If he fails, the bloodthirsty tribe will re-launch their quest to wipe humans from the planet . . . There can only be one winner in this battle of the demons. And it may not be Artemis Fowl. Ten thousand years ago, humans and fairies fought a great battle for the magical island of Ireland. When it became clear to the fairy families that they could never win, they decided to move their civilization underground and keep themselves hidden from the humans. All the fairy families agreed on this, except the 8th family, the demons. The demons planned to lift their small island out of time until they had regrouped and were ready to wage war on the humans once more. However the time spell went wrong, and the island of Hybras was catapulted into Limbo, where it has remained for ten thousand years.

Once again, Artemis will have to pair up with his old comrade, captain Holly Short, to track down the missing demon and rescue him before the time spell dissolves and the lost demon colony returns violently to Earth.

When demons begin appearing on Earth unpredictably, foreshadowing a cataclysmic breakdown of their magic, Artemis and his friends face a new foe--a twelve-year-old girl whose intellect just might match Artemis's own--as they try to prevent catastrophe.

Demons are beginning to materialize without warning on Earth. If humans were to capture one, all fairies would be exposed. In order to protect themselves, the fairies must decipher complicated equations to determine where the next demon will appear. Not even the brilliant Foaly can make heads or tails of the formulas – but he knows someone who can: Artemis Fowl. When a very confused demon imp appears in a Sicilian theater, Artemis is there to meet him. But he is not alone. Someone else has unlocked the secrets of the fairy world...and she is only twelve years old. Now, in a race against time, a newly-reformed Artemis Fowl will have to dip into his bag of dirty tricks if he is to save his fairy friends from his latest nemesis, not to mention a power hungry demon warlord who is poised to invade our dimension with his savage army.

Tony Stark is known throughout the world as many things: billionaire, inventor, Avenger. But mainly for being the Invincible Iron Man. Just when Tony is about to add his pizzazz to an international eco-summit in Ireland, someone close to him forces him to question his role in making the world a more dangerous place with his high-tech weaponry. But Stark doesn't have much time to reflect before an old enemy presents him with an even greater challenge: the assassination of all the eco-ministers, and Iron Man himself. Just how invincible Iron Man is when he is stripped of everything remains to be seen in this breathless adventure by the best-selling author of Artemis Fowl.

The obsidian mirror. Its power is great and terrible. Men have been lost in it, the dead brought back to life through it, and the future annihilated by it. Or this is what will happen unless the mirror is destroyed. Three people seek the mirror: the first has been sent from the future to shatter its power; the second will protect the mirror at all costs, obsessed with its power; and the third needs the mirror to find a murdered father and save his life. But only one can succeed. The mirror can send you to the past, but it will not bring you back. With superb world-building that includes the real world, the faery world, and a dystopic future, this hauntingly astonishing adventure is the start of a new trilogy from the master of the sci-fi/fantasy genre, Catherine Fisher. Fans of Orson Scott Card, Dr. Who, Shakespeare, and Blade Runner won't be disappointed.

The Artemis Fowl Files is comprised of two original stories: "LEPrecon": the story of Fairy Police Captain Holly Short's move from Traffic to Recon following her initiation into the Fairy Police; and "The Seventh Dwarf", featuring Mulch, Butler, and Artemis himself.
