A Manual Greek Lexicon of the New Testament by George Abbott-Smith, first published in 1922, is a rare manuscript, the original residing in one of the great libraries of the world. This book is a reproduction of that original, which has been scanned and cleaned by state-of-the-art publishing tools for better readability and enhanced appreciation. Restoration Editors' mission is to bring long out of print manuscripts back to life. Some smudges, annotations or unclear text may still exist, due to permanent damage to the original work. We believe the literary significance of the text justifies offering this reproduction, allowing a new generation to appreciate it.

The classic Greek lexicon which has proved invaluable to generations of Greek Testament students and scholars.It provides for each New Testament word its derivation, the Hebrew it represents if found in the Septuagint, its original and derived meanings with illustrations from biblical, classical and modern Greek, the general sense in which it is used in the papyri, its grammatical constructions, and references to other works in which it is discussed. There are also appendices of the irregular verbs of the Greek New Testament, and an alphabetical list of verbal forms.

The traveling public has no patience for prolonged, high cost construction projects. This puts highway construction contractors under intense pressure to minimize traffic disruptions and construction cost. Actively promoted by the Federal Highway Administration, there are hundreds of accelerated bridge construction (ABC) construction programs in the United States, Europe and Japan. Accelerated Bridge Construction: Best Practices and Techniques provides a wide range of construction techniques, processes and technologies designed to maximize bridge construction or reconstruction operations while minimizing project delays and community disruption. Describes design methods for accelerated bridge substructure construction; reducing foundation construction time and methods by using pile bents Explains applications to steel bridges, temporary bridges in place of detours using quick erection and demolition Covers design-build systems' boon to ABC; development of software; use of fiber reinforced polymer (FRP) Includes applications to glulam and sawn lumber bridges, precast concrete bridges, precast joints details; use of lightweight aggregate concrete, aluminum and high-performance steel

Originally published in 1993, this book offers a translation of Christine de Pizan's Christine's Vision, as translated by Glenda K. McLeod. One of France's first professional writers, Christine de Pizan wrote a large and remarkable body of work, distinguished not only for its variety and quality but also for its unusual blend of introspective and public commentary. As Christine's Vision makes clear, Christine sensed the similarities between her fate and France's and felt a close bond with her adopted land.
