answer using standard form. (3 × 107) × (5 × 1072) = 0.00003 × 0.05 = 0.0000015 = 1.5 × 1076 Study Tip In Example 1(b), you will get the same answer when you start by rewriting 3.5 × 1072 as 35 × 1073. mms\_blue\_pe\_1007.indd 450s\_blue\_pe\_1007.indd 450 22/2/15 4:49:56 PM/2/15 4:49:56 PM

10.7 Operations in Scienti? c Notation - Big Ideas Learning

1.1 Enrichment and Extension. 1.yes; Blue squares result from dividing each side of the equation by the same number. Instead of dividing each side, you can multiply each side by a fraction. Then you would be using the Multiplication Property of Equality and all the blue squares would now be red.

Consistent with the philosophy of the Common Core State Standards and Standards for Mathematical Practice, the Big Ideas Math Student Edition provides students with diverse opportunities to develop problem-solving and communication skills through deductive reasoning and exploration. Students gain a deeper understanding of math concepts by narrowing their focus to fewer topics at each grade level. Students master content through inductive reasoning opportunities, engaging activities that provide deeper understanding, concise, stepped-out examples, rich, thought-provoking exercises, and a continual building on what has previously been taught.

This student-friendly, all-in-one workbook contains a place to work through Activities, as well as extra practice worksheets, a glossary, and manipulatives. The Record and Practice Journal is available in Spanish in both print and online.

Consistent with the philosophy of the Common Core State Standards and Standards for Mathematical Practice, the Big Ideas Math Student Edition provides students with diverse opportunities to develop problem-solving and communication skills through deductive reasoning and exploration. Students gain a deeper understanding of math concepts by narrowing their focus to fewer topics at each grade level. Students master content through inductive reasoning opportunities, engaging activities that provide deeper understanding, concise, stepped-out examples, rich, thought-provoking exercises, and a continual building on what has previously been taught.

The Big Ideas Math program balances conceptual understanding with procedural fluency. Embedded Mathematical Practices in grade-level content promote a greater understanding of how mathematical concepts are connected to each other and to real-life, helping turn mathematical learning into an engaging and meaningful way to see and explore the real world.
