Entering the Digital Age in the History of Blueprints with Digitalization. Today, the blueprint of the future is digitally based. Although the construction industry is still widely paper-based, this is changing quickly. Now, with cloud-based document control solutions, digital drawing files are distributed instantaneously from office to the field.

The History of Blueprints - PlanGrid Construction ...

A blueprint is a reproduction of a technical drawing or engineering drawing using a contact print process on light-sensitive sheets. Introduced by Sir John Herschel in 1842, the process allowed rapid and accurate production of an unlimited number of copies. It was widely used for over a century for the reproduction of specification drawings used in construction and industry.
