The co-founder of EVA shows how to apply it in today's new economy EVA-economic valued added-is a measure of the true financial performance of a company, and a strategy for creating corporate and shareholder wealth. It is also a method of changing corporate priorities and behavior throughout a company, right down to the "shop floor." In The EVA Challenge, the authors outline how to implement EVA-from training employees to answering the most frequently encountered implementation problems faced by companies. This detailed "how-to" guide represents the second phase in the "EVA Revolution", showing executives around the world how to customize and implement EVA at their companies. Here, EVA converts learn how to work some "EVA magic" through company-specific initiatives and case study examples. Coverage includes completely new materials on "real options", leveraged stock options, and other concepts critical to corporations in both new and old economy industry sectors.

In this compelling travel memoir, two-time PEN/Faulkner Award winner John Edgar Wideman explores Martinique's seductive natural beauty and culture, as well as its vexed history of colonial violence and racism. Attempting to decipher the strange, alluring mixture of African and European that is Creole, he and his French traveling companion develop a powerful attraction to one another which they find at once threatened and elevated by a third party - the island itself.
