Managers are people who steer organizations towards meeting their objectives effectively and efficiently. Modern-day managers need to understand contemporary issues in management to achieve these objectives. Spread over nine parts, *Business Organization and Management: Text and Cases* addresses these issues in simple and student-friendly language, and explains concepts through rich diagrams and examples.

With a user-friendly style and a strong theoretical base, *Business Organisation for Construction* provides readers with the tools required to skillfully and successfully operate a business in today's construction industry. Arranged into three sections, Chris March explains: strategy and vision, business finance and the market place the organization, recruitment, support, motivation and leadership of people communication and negotiation. With a wealth of practical construction industry experience, March provides rich anecdotal evidence to enlighten the theory, as well as illustrations and tables to clarify. Available singly or as part of a set, *Business Organisation for Construction* is a valuable resource for construction students.

This new edition of *Organisations and the Business Environment* provides a completely revised, extended and updated edition of the original successful text. It provides contemporary and comprehensive coverage of the subject matter which is highly relevant to business and management students at undergraduate, postgraduate and professional levels. The text is written in a clear and concise style, illustrated with topical examples and data. *Organisations and the Business Environment* (second edition) comprises four sections: * *Business Organisations* ;V discusses the evolution of organisational and managerial theories and concepts with particular emphasis on their relevance in the 21st century. The different types of organisations and their missions, visions, goals and objectives are examined. * *The External Business Macro-Environment* ;V describes and considers the political, economic, socio-cultural, technological, ecological and legal influences on organisations, utilizing the PESTEL framework of analysis. This section includes a review of the internationalization of businesses and examines the role of GATT and the WTO, single markets and trading blocs. * *The External Business Micro-Environment* ;V provides a review of the market system and the nature of supply and demand. Market structures are examined in the light of monopolistic regimes and working for competitive advantage. The impact of government intervention is explored via regulatory bodies, privatization, and nationalization programmes. * *Business Management* ;V explores the major aspects of contemporary business organisations, including corporate governance and business ethics. In particular, this section tackles the areas of structure, culture, change, quality management and the principal functions of organisations. This textbook is a user-friendly resource with end of chapter questions, activities and assignments to consolidate learning. Its strong emphasis on topical examples enables students to understand how theory is applied in business contexts, including, GlaxoSmithKline, BT, Scottish and
