In this stunningly original book, Richard Wrangham argues that it was cooking that caused the extraordinary transformation of our ancestors from

Acces PDF Catching Fire Summary Chapter 4

apelike beings to Homo erectus. At the heart of Catching Fire lies an explosive new idea: the habit of eating cooked rather than raw food permitted the digestive tract to shrink and the

Acces PDF Catching Fire Summary Chapter 4

human brain to grow, helped structure human society, and created the male-female division of labour. As our ancestors adapted to using fire, humans emerged as "the cooking apes". Covering everything from food-

pets to raw-food faddists,
Catching Fire offers a
startlingly original
argument about how we came
