The teaching of optometry began with correspondence courses provided by lens and frame manufacturers. Today, optometric education consists of a postbaccalaureate educational program that includes much more than a study of physical and physiologic optics. It encompasses studies in basic and clinical sciences and engages in basic and clinical

Clinical and Experimental Optometry, 2004 "Clinical procedures in primary eye care (CP) is, in my opinion, an excellent introductory text for all students studying optometry, especially those in their formative years as students. The authors have done a sterling job in putting together a text that introduces different examination procedures, how to conduct or perform the procedure.
