The closing entries are the journal entry form of the Statement of Retained Earnings. The goal is to make the posted balance of the retained earnings account match what we reported on the statement of retained earnings and start the next period with a zero balance for all temporary accounts.

### Closing Entries | Financial Accounting

Closing entries, also called closing journal entries, are entries made at the end of an accounting period to zero out all temporary accounts and transfer their balances to permanent accounts. In other words, the temporary accounts are closed or reset at the end of the year. This is commonly referred to as closing the books.

### Closing Entries | Types | Example | My Accounting Course

A closing entry is a journal entry that is made at the end of an accounting period to transfer balances from a temporary account to a permanent account. Companies use closing entries to reset the balances of temporary accounts - accounts that show balances over a single accounting period - to zero.

### Closing Entry—Definition, Explanation, and Examples

Closing Entries Closing journal entries are made at the end of an accounting period to prepare temporary accounts for the next period. This is because temporary or nominal accounts, (also called income statement accounts), are measured periodically ; and so, the amounts in one accounting period should be closed or brought to zero so that they won't get mixed with those of the next period.

### Closing Entries: Step-by-Step Guide—AccountingVerse
