John Perkins: Economic Hit Man Summary of Confessions of an Economic Hit Man About John Perkins: Author of Confessions of an Economic Hit Man

Perkins, a former chief economist at a Boston strategic-consulting firm, confesses he was an "economic hit man" for 10 years, helping U.S. intelligence agencies and multinationals cajole and blackmail foreign leaders into serving U.S. foreign policy and awarding lucrative contracts to American business.

Featuring 15 explosive new chapters, this new edition of the New York Times bestseller brings the story of Economic Hit Men up-to-date and, chillingly, home to the U.S.—but it also gives us hope and the tools to fight back. Former economic hit man John Perkins shares new details about the ways he and others cheated countries around the globe out of trillions of dollars. Then he reveals how the deadly EHM cancer he helped create has spread far more widely and deeply than ever in the US and everywhere else—to become the dominant system of business, government, and society today. Finally, he gives an insider view of what we each can do to change it. Economic hit men are the shock troops of what Perkins calls the corporatocracy, a vast network of corporations, banks, colluding governments, and the rich and powerful people tied to them. If the EHMs can't maintain the corrupt status quo through nonviolent coercion, the jackal assassins swoop in. The heart of this book is a completely new section, over 100 pages long, that exposes the fact that all the EHM and jackal tools—false economics, false promises, threats, bribes, extortion, debt, deception, coups, assassinations, unbridled military power—are used around the world today exponentially more than during the era Perkins exposed over a decade ago. As dark as the story gets, this reformed EHM also provides hope. Perkins offers specific actions each of us can take to transform what he calls a failing Death Economy into a Life Economy that provides sustainable abundance for all.

The material in this new section ranges from the Seychelles, Honduras, Ecuador, and Libya to Turkey, Western Europe, Vietnam, China, and, in perhaps the most unexpected and sinister development, the United States, where the new EHMs—bankers, lobbyists, corporate executives, and others—“con governments and the public into submitting to policies that make the rich richer and the poor poorer.” But as dark as the story gets, this reformed EHM also provides hope. Perkins offers a detailed list of specific actions each of us can take to transform what he calls a failing Death Economy into a Life Economy that provides sustainable abundance for all.

Presents an expose of international corruption activities as reported by some of the world's top assassins, journalists, and activists, in a cautionary report that makes recommendations for safeguarding the world.

“This eloquent book inspires us to create a new reality of what it means to be human on this magnificent planet.” —Deepak Chopra When New York Times bestselling author John Perkins was a young Peace Corps volunteer, his life was saved by an Amazonian shaman who taught him to “touch the jaguar”—to transform his fears into positive action. He went on to become an “economic hit man” (EHM), convincing developing countries to build huge infrastructure projects that put them perpetually in debt to the World Bank and other US-controlled

institutions. Although he sincerely believed this was the best model for economic development, he came to realize it was really a new form of colonialism. Returning to the Amazon, he saw the destructive impact of his EHM work. But he also was inspired by a previously uncontacted tribe that touched its jaguar by uniting with its enemies to defend its territory against invading oil and mining companies. For the first time, Perkins details how his experiences in the Amazon converted him from an EHM to a crusader for transforming our failing Death Economy that destroys its own resources and nature itself into a flourishing Life Economy that renews itself. He provides a strategy for each of us to change our lives and defend our territory—the earth—against destructive policies and systems.

A former consultant to the U.S. government reveals the inner workings of the high-stakes economic game that encourages third world economies to borrow money so that major corporations like Halliburton end up getting the lucrative contracts.

Builds on the shocking picture of worldwide economic corruption first presented in John Perkins' Confessions of an Economic Hit Man • Features a dozen chapters detailing contemporary examples of how the economic hit man game is played around the globe John Perkins' controversial and bestselling exposé, Confessions of an Economic Hit Man, revealed for the first time the secret world of economic hit men (EHMs). But Perkins' Confessions contained only a small piece of this sinister puzzle. The full story is far bigger, deeper, and darker than Perkins' personal account revealed. Here other EHMs, journalists, and investigators join Perkins to tell their own stories, providing the first probing and expansive look into this pervasive web of systematic corruption. With chapters spotlighting how specific countries around the globe have been subverted, A Game As Old As Empire uncovers the inner workings of the institutions behind these economic manipulations. The contributors detail concrete examples of how the "economic hit man game" is still being played: an officer of an offshore bank hiding hundreds of millions of dollars in stolen money, IMF advisers slashing Ghana's education and health programs, a mercenary defending a European oil company in Nigeria, a consultant rewriting Iraqi oil law, and executives financing warlords to secure supplies of coltan ore in Congo. Together they show how this system of corruption and plunder operates in real life, and reveal the price that the rest of the world must pay as a result. Most important, A Game As Old As Empire connects the dots, showing how the various pieces of this system come together to create the world's first truly global empire.

Takes aim at the current global economic crisis and attempts to clear a path out of the rubble by providing a plan for remaking the economic markets.

Economic Hit Man documents John Perkins' extraordinary career as a globe-trotting economic hit man. Perkins' insider's view leads him to crisis of conscience--to the realization that he must devote himself to work which will foster a world-wide awareness of the sanctity of indigenous peoples, their cultures, and their environments. Perkins' books demonstrate how the age-old shamanic techniques of some of the world's most primitive peoples have sparked a revolution in modern concepts about healing, the subconscious, and the powers each of us has to alter individual and communal reality. This groundbreaking book is John Perkins's firsthand account of his experiences with the shamanic technique of psychonavigation--a method of traveling outside the body by means of visions and dream wanderings--and his encounters with the Shuar of the Amazon, the Quechua of the Andes, and the Bugis of Indonesia. Shuar shamans psychonavigate for the purposes of hunting and healing, while the Bugis, among the most renowned sailors of the world, use these techniques to navigate without the aid of charts and compasses. Perkins explains how these techniques work and how the people of these indigenous cultures psychonavigate to both distant physical destinations and sources of inner wisdom. Throughout history, psychonavigation has been practiced by highly creative minds such as Beethoven, Jung, and Einstein. Perkins's riveting narrative takes us on a journey of personal discovery as he learns the great value of these techniques and their relevance not only to individual well-being, but to the health of the environment and of the world at large. He reveals how by attuning to the positive forces in nature and communicating with our inner guides we all can become psychonavigators, finding our way to wise decisions and developing innovative approaches to the challenges we face as individuals and a world community.
