Corporate Finance, by Ross, Westerfield, and Jaffe is a popular textbook that emphasizes the modern fundamentals of the theory of finance, while providing contemporary examples to make the theory come to life. The authors aim to present corporate finance as the working of a small number of integrated and powerful intuitions, rather than a collection of unrelated topics. They develop the central concepts of modern finance: arbitrage, net present value, efficient markets, agency theory, options, and the trade-off between risk and return, and use them to explain corporate finance with a balance of theory and application. The well-respected author team is known for their clear, accessible presentation of material that makes this text an excellent teaching tool. Brad Jordan, known for his successful work on the RWJ Fundamentals and Essentials books, contributed to this edition. His influence will be seen particularly in the writing style with smoother coverage of topics, and the increased quality in the problem material.

This text builds on the tradition of excellence that instructors and students have come to associate with the Ross, Westerfield and Jordan series. It blends comprehensive coverage of modern research with an emphasis on practical applications. Written with one strongly held principle that corporate finance should be developed and taught in terms of a few integrated, powerful ideas, three basic themes became the central focus of the book. This Asia Global Edition aims to meet the significant gap for a book with Asian examples and internationalized Asian content. -- From back cover.

Fundamentals of Corporate Finance's applied perspective cements students' understanding of the modern-day core

Advances in Business in Asia examines current trends and issues facing organisations operating in a global business milieu. The book comes at a pivotal time when many businesses are emerging from the 2008 Global Financial Crisis, and are seeking a way forward in dealing with the opportunities and challenges presented by global capitalism in general, and China, India, and the ASEAN region specifically. The book is a compilation of selected papers presented at AFBE conferences. All contributions were double-blind peer reviewed prior to acceptance, and represent the contributions of eminent academics in their particular field of expertise. The Asian Forum on Business Education (AFBE) is a not-for-profit organisation whose aim is to provide a forum of scholarly exchange in the areas of business, economics and management, with a particular focus on the Asia region.

This book establishes new theory and knowledge in the area of third sector organizations (TSOs) in Asia. Its purpose is to draw the attention of Asia's TSOs to the importance of good governance. The book documents a variety of approaches, and identifies socio-cultural, economic, and political dynamics and impacts of different models of TSO governance. The combined information from the contributions in this work will ensure the sustainability of TSOs throughout Asia.

The Second Edition of the book encompasses two new

chapters—Strategic Cost Management and Business Ethics—A Strategic Financial Management Instrument. The book, being an augmented version of the previous edition, equips the young managers with the fundamentals and basics of strategic management and financial management in a cogent manner. The text now provides a better orientation to the students on the topics like corporate restructuring, divestitures, acquisitions, and mergers in the global context with the help of examples and caselets. The book has been revised keeping in view the requirements of postgraduate students of management and the students pursuing professional courses such as CA, MFC and CS. In addition, professionals working in the corporate sector may also find the book beneficial to integrate the financial management functions into business strategy and financial operations. Distinctive features

- Model question papers have been appended at the end of the book.
- Better justification of topics by merging the contents wherever required.
- Theory supported with caselets inspired from global as well as Indian context.
