Test ii manufacturing and related disciplines, in order to assure that the product meets applicable specifications. Test engineers are also responsible for determining the best way a test can be performed in order to achieve adequate test coverage.

Test engineer - Wikipedia

A "customer first" attitude is inherent in every step a technical support engineer takes. Technical Knowledge. Most organizations expect to be a resource of information and technical knowledge. More often, this comes from hands-on experience and professional development than just academic learning.
