an organization and methodology derived from his experience and presents the material in an easy to follow form, using graphical illustrations and examples for maximum effect. The second, enlarged edition provides the reader with a thorough introduction to external turbulent flows, written by Glen Thorncraft. Additional highlights of note: Illustrative examples are used to demonstrate the application of principles and the construction of solutions, solutions follow an orderly approach used in all examples, systematic problem-solving methodology emphasizes logical thinking, assumptions, approximations, application of principles and verification of results. Chapter summaries help students review the material.

This workbook combines review activities and practical applications that relate to the content of the textbook chapters from Auto Collision Repair and Refinishing. Questions designed to reinforce the textbook content help students review their understanding of the terms, concepts, theories, and procedures presented in each chapter. The Lab Workbook also contains a series of Job Sheets that provide hands-on practice of skills and procedures aligned to the ASE Education Foundation Tasks. The jobs engage students with the practical skills needed to succeed and are designed to be accomplished in one or two lab sessions. The Shop Manual Job Sheets are intended to be completed in a shop setting under the guidance of an instructor.
