toward a passing grade ... Sinclair daily on his progress.

Presents a collection of activities for students in the fifth grade covering such topics as word problems, graphing, measurement, and numbers.

The Use It! Don't Lose It! Daily Practice Series helps your students use their skills, so they won't lose them! There are five problems a day, every day, for 36 weeks. The practice activities are set up in a spiraling scope and sequence so that students practice skills at regular intervals. Each week problems are based on a grade-level appropriate topic so every time a skill shows up, it has a new context, requiring students to dig into their memories, recall what they know, and apply it to a new situation. Correlated to state and national standards, this six book series provides daily math and daily language practice.

Support kindergarten students with 180 daily practice activities to build their mathematical fluency. Each problem is tied to a specific mathematical concept to help students gain regular practice of key grade-level skills. This book features quick, diagnostic-based activities that are correlated to College and Career Readiness and other state standards, and includes data-driven assessment tips. Digital resources include assessment analysis tools and pdfs of the activity sheets. With these daily practice activities, teachers and parents will be helping kindergarteners improve their math skills in no time!

Using standardized testing formats, math skills are kept sharp with focused practice in computation, word problems, graphing, measurement and numbers. Includes scope and sequence charts and answer keys.

Includes literary and factual texts, a variety of question types, graphic organizers.

"5 daily problems, 36 weeks, operations strategies, number relationships, fractions, algebra, measurement and data, geometry, word problems, skills list and answer key"--Page 1 of cover.

This week of practice pages build fifth graders' mathematical fluency. Each problem is tied to a specific mathematical concept. Daily practice through these quick activities will help your young mathematicians. Great formative assessment tool!

Reinforce Math Concepts! In this math workbook, the activities for each day of the week focus on a specific math strand, including number sense and operations, patterning and algebra, measurement, fractions, geometry, and data management. Features ready-to-go, reproducible activities! Skills covered in this workbook: * Operations and Algebraic Thinking * Operations in Base Ten * Fractions * Geometry *

Measurement and Data About this workbook: Designed for teachers with parents in mind, this workbook is perfect for the classroom and for
