~~Excellent older book by Annemarie Selinko about the life of Eugenie Desiree Clary, a silk merchant's daughter, who was the first love of Napoleon Bonaparte. She later married Jean Baptiste Bernadotte who became the King of Sweden. Their descendants rule Sweden today. I read this book years ago and am rereading it again.~~

A sweeping novel about the extraordinary woman who captured Napoleon's heart, created a dynasty, and changed the course of history--from the New York Times bestselling author of *The Traitor's Wife*, *The Accidental Empress*, and *Sisi*. As the French revolution ravages the country, Desiree Clary is faced with the life-altering truth that the world she has known and loved is gone and it's fallen on her to save her family from the guillotine. A chance encounter with Napoleon Bonaparte, the ambitious and charismatic young military prodigy, provides her answer. When her beloved sister Julie marries his brother Joseph, Desiree and Napoleon's futures become irrevocably linked. Quickly entering into their own passionate, dizzying courtship that leads to a secret engagement, they vow to meet in the capital once his career has been secured. But her newly laid plans with Napoleon turn to sudden heartbreak, thanks to the rising star of Parisian society, Josephine de Beauharnais. Once again, Desiree's life is turned on its head. Swept to the glittering halls of the French capital, Desiree is plunged into the inner circle of the new ruling class, becoming further entangled with Napoleon, his family, and the new Empress. But her fortunes shift once again when she meets Napoleon's confidant and star general, the indomitable Jean-Baptiste Bernadotte. As the two men in Desiree's life become political rivals and military foes, the question that arises is: must she choose between the love of her new husband and the love of her nation and its Emperor? From the lavish estates of the French Riviera to the raucous streets of Paris and Stockholm, Desiree finds herself at the epicenter of the rise and fall of an empire, navigating a constellation of political giants and dangerous, shifting alliances. Emerging from an impressionable girl into a fierce young woman, she discovers that to survive in this world she must learn to rely upon her instincts and her heart. Allison Pataki's meticulously researched and brilliantly imagined novel sweeps readers into the unbelievable life of a woman almost lost to history--a woman who, despite the swells of a stunning life and a tumultuous time, not only adapts and survives but, ultimately, reigns at the helm of a dynasty that outlasts an empire.

The masterful saga of Bonaparte's twenty-six military Marshals by Napoleonic authority Delderfield is set against the dramatic backdrop of the French Revolution, Napoleon's rise and his conquests, and the restoration of the Bourbon monarchs.

First published in 1944, this national bestseller was made into a major motion picture starring Gene Tierney and Vincent Price in 1946. A classic gothic romance, the story features an 18-year-old Miranda Wells who falls under the spell of a mysterious old mansion and its equally fascinating master.

This is a story of a young man's obsession with a Berlin vari é t é actress. Despite having his future career mapped out for him in the diplomatic service, the young man begins to question all his family values under Sibylle's spell. His family, future, and social standing become irrelevant when set against his overriding compulsion to pick her up every night from the theater so they can go for a drive. This novella is an evocative narrative, with many intriguing parallels to the author's own life. In fact, she admitted after publication that her hero was a young woman, not a man, leaving little doubt that this is a literary tale of lesbian love during socially and politically turbulent times.

Perhaps the most successful historical romance since *GONE WITH THE WIND*, *DESIREE* is the bestselling novel of Napoleon's first love. All the passions and intrigues of Bonaparte's court are seen through the eyes of a silk merchant's daughter from Marseilles, a young woman who became Napoleon's fiancée and, ultimately, the Queen of Sweden. 'An astonishing story told with verve and a swift, fluent and deeply feminine charm. The Napoleonic background is vivid and accurate' Evening Standard First published in 1953.

The Medici are famous as the rulers of Florence at the high point of the Renaissance. Their power derived from the family bank, and this book tells the fascinating, frequently bloody story of the family and the dramatic development and collapse of their bank (from Cosimo who took it over in 1419 to his grandson Lorenzo the Magnificent who presided over its precipitous decline). The Medici faced two apparently insuperable problems: how did a banker deal with the fact that the Church regarded interest as a sin and had made it illegal? How in a small republic like Florence could he avoid having his wealth taken away by taxation? But the bank became indispensable to the Church. And the family completely subverted Florence's claims to being democratic. They ran the city. *Medici Money* explores a crucial moment in the passage from the Middle Ages to the Modern world, a moment when our own attitudes to money and morals were being formed. To read this book is to understand how much the Renaissance has to tell us about our own world. *Medici Money* is one of the launch titles in a new series, Atlas Books, edited by James Atlas. Atlas Books pairs fine writers with stories of the economic forces that have shaped the world, in a new genre - the business book as literature.
