Steaming up the Missouri River en route to the frontier, the Arabia carried 130 passengers and 220 tons of precious cargo. On September 5, 1856, a submerged walnut tree pierced her hull, sinking the Arabia one-half mile below Parkville, Missouri. In time the river changed course, leaving the Arabia and her priceless freight deep beneath a Kansas farm field. In 1988, four men and their families dedicated themselves to achieve what others could not; to recover the treasure from the Great White Arabia.

emeralds, pearls... But then the Fair People vanished, taking with them their twelve fabulous treasures. And they remained hidden until now... Across North America, these twelve treasures, over ten-thousand dollars in precious jewels in 1982 dollars, are buried. The key to finding each can be found within the twelve full-color paintings and verses of THE SECRET. Are you smart enough? THE SECRET: A TREASURE HUNT was published in 1982. The year before publication, the author and publisher Byron Preiss had traveled to 12 locations in the continental U.S. (and possibly Canada) to secretly bury a dozen ceramic casques. Each casque contained a small key that could be redeemed for one of 12 jewels Preiss kept in a safe deposit box in New York. The key to finding the casques was to match one of 12 paintings to one of 12 poetic verses, solve the resulting riddle, and start

The author of Hidden History offers a fascinating tour through centuries of buried riches, stolen artifacts, and other true tales of treasure. The allure of treasure has captivated people for centuries. But is it purely a desire for wealth that draws us to tales of hidden riches, or is it also the romantic appeal of uncovering lost ancient artifacts? The stories behind the loss and recovery of ancient treasures often read like historical suspense fiction. In Ancient Treasures, readers discover the true histories of lost hoards, looted archaeological artifacts, and sunken treasures, including: The Sevso Treasure, a hoard of large silver vessels from the late Roman Empire—estimated to be worth \$200 million—looted in the 1970s and sold on the black market.
