Drive Away Protection System (EWS) - Unofficial BMW

The purpose of the Drive
Away Protection system was
to reduce vehicle theft as
mandated by the European
Insurance Commission to
combat the high theft rate
in European Countries. This
first version of the Drive
Away Protection System added
a circuit from the General
Module to the DME. The added
circuit was spliced into the
existing code function from
the Board Computer (BC) to

Introduction For (EWS) Drive Away Protection System

The function of the EWS II module is to provide improved drive away protection for the vehicle and it incorporates many features of previous systems:

- Lock out of the starter when the code function of the BC is set.
- Disable injection and ignition through the DME.
- Prevent starter engagement with engine running.
