~~Development~~

The fact that education

plays an important role in

human development is often

ignored. This is a shame,

because it's this value that

is often most important.

Education can help people

develop economically,

socially, and

intellectually. Further,

Education has a modernizing
influence on values, beliefs
and behaviours which make
human beings more
development-oriented. Viewed
from the modernization
theory, education is called
upon to re-orientate and/or
suppress beliefs, attitudes
and values which tend to
obstruct the initiation of
the modernization process.

~~Education policy and planning — UNESCO~~

The comprehensive investment planning for education that incorporated nationwide capital planning for education is an effective example of the integrative plan that France developed in 1946 AD. However, it was not until the 1960s when educational planning became very popular in most of the countries, especially in the developing countries (UNESCO, 2003).

~~Planning — UKEssays.com~~

Educational Planning •
Educational planning can be defined as 'the process of setting out in advance, strategies, policies, procedures, programmes and standards through which an educational objective (or set of objectives) can be achieved'. • Educational planning is a detailed and systematic process: it just does not happen by chance.
