Among them are other truck drivers, trucking customers, and official personnel having regular contact with truckers. See CB Terminology for help with any terms you're not familiar with. For the most part, the CB radio is (still) how you communicate in truck driving. There are other times, however, when communication is accomplished by truck drivers signaling with the truck's lights, flashers, and turn signals (See below for more information).

Currently, that starts and ends with engine data. “At this time, it is just engine codes, but there are plans to continue to grow that for other systems and other faults on the truck as well,” Griffin says. “Customers want to know what’s going on throughout the entire truck, not just the engine. I’ve heard that feedback with customers.
