Further to PasTest's 'Essential MCQs' range, here is a book specific to medical students studying for their Obstetrics and Gynaecology examinations. Three practice papers provide mixed questions and revision checklists that cover all areas.

A collection of over 450 tried and tested multiple choice questions comes complete with reasoned answers. Published in association with the Royal College of Obstetricians and Gynaecologists, the pattern of questions follows that of the MRCOG Part 1 providing essential revision material and MCQ practice for this examination.

This work features a Foreword by David Taylor, Vice Dean, Leicester Medical School. "This book is the first to assist students with a new format of testing knowledge and clinical skills. i.e., the extended matching question. I am delighted my colleagues here in Leicester, where undergraduate education is given the very highest priority, have found the time and energy to write this book. This book comprehensively tests a whole range of obstetrics and gynaecology and I congratulate them for it." - David Taylor, in the Foreword. This revision aid in Obstetrics and Gynaecology is based on the Extended Matching Question format (EMQ). It contains over 200 patient vignettes arranged in topic areas covering a broad range of themes and degrees of difficulty. It provides test EMQs and detailed answers at the completion of each section. "EMQs in Obstetrics and Gynaecology" is an indispensable study and revision aid for undergraduate medical students preparing for in-course assessment in obstetrics and gynaecology as well as final exams. It also provides a vital review for specialist trainees in obstetrics and gynaecology preparing to take postgraduate exams.

This comprehensively updated new edition provides a thorough and dynamically-illustrated overview of the female reproductive organs, care of the female during pregnancy, childbirth and the postnatal period. It is clinically relevant, with a focus on diagnosing, managing and treating disorders and abnormalities and is fully aligned with medical school curricula. Obstetrics and Gynecology at a Glance: @ Recaps basic history taking, anatomy and endocrinology and focuses on clinically relevant information @ Covers each topic in a double-page spread, packed with charts, graphs, photographs and visuals @ Includes thoroughly updated sections on reproductive endocrinology, infertility and urogynecology The companion website at www.ataglanceseries.com/obgyn features interactive flashcards, case studies and multiple-choice questions (MCQs). Obstetrics and Gynecology at a Glance is the perfect guide for medical students, junior doctors and midwives, and is ideal for those embarking on clinical rotations and the clerkship.

This book is a compact question-based review of the most critical topics an obstetrician will come across in practice. Each chapter includes 10-30 multiple-choice questions designed to test the readers understanding surrounding one obstetric topic. Based on all 45 obstetric based practice bulletins by ACOG, this text is designed to keep practitioners up-to-date with the latest evidence based medicine. Sample topics include: anemia in pregnancy, screening for fetal chromosomal abnormalities, and vaginal birth after previous cesarean delivery. This is an ideal tool for attendings and clerkship directors who frequently test residents and medical students during rounds and in the classroom. This review also proves useful for practicing physicians and physicians-in-training who want to self-evaluate their comprehension and study for board examinations.

The book provides advice on how to prepare for the examination and how questions should be approached to obtain the highest marks. With more than 350 questions, preparation tips and extensive answer explanations, it is the definitive resource for those attempting the DRCOG. The book is comprehensive and authoritative: written by an experienced author and overseen by a well-respected expert in the field. It is the essential revision guide for those preparing for this examination.

European Practice in Gynaecology and Obstetrics is a series of books conceived and endorsed by the European Board and College of Obstetrics and Gynaecology (EBCOG). The topics chosen for each volume are those of significant clinical interest where treatment is changing in response to research findings and developments in practice. The volume editor and contributing authors are European specialists invited to contribute because of their expertise in their field. The books concentrate on various types of management used in European practice as well as published results. The authors present treatments for which a consensus exists and - when there is no consensus - they discuss the key elements of the controversy. Each book provides a review of the basic science, recent concepts in pathophysiology, clinical aspects, treatment and unresolved problems or controversies, as well as the major recent references. A final section provides multiple-choice questions for each chapter. Series concentrates on important and changing areas of clinical practice Each volume editor is a leading European expert in the field Contributors are drawn from a wide range of European countries All volumes include a review of basic science and pathophysiology, as well as clinical aspects, treatment, unresolved problems Current references are included for each chapter Multiple choice questions are provided at the end of each chapter This volume comes with a CD containing all the colour images in the book plus 106 extra images

Get Through MRCOG Part 2: MCQs covers the breadth and depth of the MRCOG Part 2 examination syllabus and is an essential revision tool for candidates preparing for this examination. The comprehensive and wide collection of practice questions is designed to help the candidate test and assess their knowledge of the subject, aiding them in thorough preparation for the exam. The text contains 750 multiple choice stems, each with around four associated questions, providing the reader with a total of 3000 individual questions with which to test themselves. The material is divided up by subject area, allowing candidates to test their knowledge on a particular topic. The 13 'modules' are followed by two mock papers, each containing a selection of questions on different subject areas, which the reader can attempt under timed conditions. Answers are provided, with useful explanatory information for all questions to help the reader understand why their answer is right or wrong. The author, Paul Ayuk, was clinical lecturer in obstetrics and gynaecology at Oxford University for 6 years and has run an on-line MRCOG course for over 5 years, assisting over 8000 candidates worldwide. The author, Paul Ayuk, was clinical lecturer in obstetrics and gynaecology at Oxford University for 6 years and has run an on-line MRCOG course for over 5 years, assisting over 8000 candidates worldwide.

MRCOG PART 2: 550 MCQs, EMQs and SAQs offers the most up-to-date and comprehensive coverage of practice questions for trainees preparing for the MRCOG Part 2 written exam. Presented in a clear layout, chapters are mapped to the syllabus to deliver structured revision in all the key topics. Featuring a wealth of practice questions and fully descriptive answers, this book provides the essential revision tool to maximise chances of exam success. 550 questions, comprising 250 MCQs, 250 EMQs and 50 SAQs, reflecting the breadth of topics encountered in the actual exam Answers feature concise rationales to consolidate knowledge and understanding Extensive evidence-based referencing to relate theory to clinical practice

This is an essential revision aid for all trainee obstetricians. Comprising 360 MCQ's with cross-references to Key Topics in Obstetrics and Gynaecology, Second Edition, for the detailed background to the questions and their answers, this text will ensure a successful examination.
