Gizmo of the Week: Force and Fan Carts | ExploreLearning News

ExploreLearning® is a Charlottesville, VA based company that develops online solutions to improve student learning in math and science.. STEM Cases, Handbooks and the associated Realtime Reporting System are protected by US Patent No. 10,410,534. 110 Avon Street, Charlottesville, VA 22902, USA

This undergraduate textbook on the physics of wave motion in optics and acoustics avoids presenting the topic abstractly in order to emphasize real-world examples. While providing the needed scientific context, Dr. Espinoza also relies on students' own experience to guide their learning. The book's exercises and labs strongly emphasize this inquiry-based approach. A strength of inquiry-based courses is that the students maintain a higher level of engagement when they are studying a topic that they have an internal motivation to know, rather than solely following the directives of a professor. "Wave Motion" takes those threads of engagement and interest and weaves them into a coherent picture of wave phenomena. It demystifies key components of life around us--in music, in technology, and indeed in everything we perceive--even for those

without a strong math background, who might otherwise have trouble approaching the subject matter.

THE STORY: Locked in an office by an unseen producer, Hollywood veteran Manny McCain takes on the assignment of his life: to shape the sloppy opus of a gifted, guileless young writer into the next great crime noir. When Max and Thomas, two career c

Grade 11.

Don't miss syndicated radio host and author Mark Levin's #1 New York Times acclaimed and longtime bestselling manifesto for the conservative movement. When nationally syndicated radio host Mark R. Levin's Liberty and Tyranny appeared in the early months of the Obama presidency, Americans responded by making his clarion call for a new era in conservatism a #1 New York Times bestseller for an astounding twelve weeks. As provocative, well-reasoned, robust, and informed as his on-air commentary, with his love of our country and the legacy of our Founding Fathers reflected on every page, Levin's galvanizing narrative provides a philosophical, historical, and practical framework for revitalizing the conservative vision and ensuring the preservation of American society. In the face of the modern

liberal assault on Constitution-based values, an attack that has resulted in a federal government that is a massive, unaccountable conglomerate, the time for reinforcing the intellectual and practical case for conservatism is now. In a series of powerful essays, Levin lays out how conservatives can counter the tyrannical liberal corrosion that has filtered into every timely issue affecting our daily lives, from the economy to health care, global warming to immigration, and more.

Glorious new rejacket of a Diana Wynne Jones classic award-winning favourite, featuring Chrestomanci - now a book with extra bits! Everybody says that Gwendolyn Chant is a gifted witch with astonishing powers, so it suits her enormously when she is taken to live in Chrestomanci Castle. Her brother Eric (better known as Cat) is not so keen, for he has no talent for magic at all. However, life with the great enchanter is not what either of them expects and sparks begin to fly! Winner of the Guardian Award.
