for understanding and using financial statements for business students and practitioners. Developed specifically for students undertaking accounting valuation subjects, the text is unique in its approach which introduces and develops a framework for business analysis and valuation using financial statement data, then shows how to apply this framework to a variety of decision contexts. All chapters of this edition have been updated to include the latest regulations, practices and examples from both the financial markets and research. Industry insights from practitioners and other experts have been added to each chapter, giving students a practical, real-life understanding of how the content they are learning translates to the workplace. With an increased number of real-business Asia-Pacific case studies exploring various issues, including a running chapter example, and references to recent research in this field, the text offers local context and a practical and in-depth approach.

Decisions originally reported currently in Standard federal tax service, Federal estate and gift tax service, and Federal excise tax reports.
