In this newly revised and expanded first volume of essays adapted from the acclaimed blog TARDIS Eruditorum you'll find a critical history of William Hartnell's three seasons of Doctor Who. TARDIS Eruditorum tells the ongoing story of Doctor Who from its beginnings in the 1960s to the present day, pushing beyond received wisdom and fan dogma to understand that story not just as the story of a geeky sci-fi show but as the story of an entire line of mystical, avant-garde, and radical British culture. It treats Doctor Who as a show that really is about everything that has ever happened, and everything that ever will. This volume focuses on the earliest years of the program, looking at how it emerged from the existing traditions of science fiction in the UK and how it quickly found its kinship with the emerging counterculture of the 1960s. Every essay from the Hartnell era has been revised and expanded from its original form, and the eight new essays exclusive to the collected edition have been augmented by a further eleven, providing nineteen book-exclusive essays on topics like what happened before *An Unearthly Child*, whether the lead character's name is really Doctor Who, and how David Whitaker created the idea of a Doctor Who novel. Plus, you'll learn: How acid-fueled occultism influenced the creation of the Cybermen. Why *The Celestial Toymaker* is irredeemably racist. The Problem of Susan Foreman

When she was nine, Megan Meade met a group of terrible, mean, Popsicle-goo-covered boys, the sons of her father's friend -- the McGowan boys. Now, seven years later, Megan's army doctor parents are shipping off to Korea and Megan is being sent to live with the little monsters, who are older now and quite different than she remembered them. Living in a house with seven boys will give Megan, who has never even been kissed, the perfect opportunity to learn everything there is to know about boys. And she'll send all her notes to her best friend, Tracy, in... *Megan Meade's Guide to the McGowan Boys* Observation #1: Being an army brat sucks. Except that this is definitely a better alternative to moving to Korea. Observation #2: Forget evil, laughing, little monsters. These guys have been touched by the Abercrombie gods. They are a blur of toned, suntanned perfection. Observation #3: I need a lock on my door. STAT. Observation #4: Three words: six-pack abs. Observation #5: Do not even get me started on the state of the bathroom. I'm thinking of calling in a hazmat team. Seriously. Observation #6: These boys know how to make enemies. Big time. Megan Meade will have to juggle a new school, a new family, a new crush -- on the boy next door, as in next bedroom door -- and a new life. Will she survive the McGowan boys?

The ultimate guide to nachos, the ultimate finger food, with recipes from America's best chefs and pop-culture icons."

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Since its publication in 1995, the German Technical Dictionary has established itself as the definitive resource for anyone who needs to translate technical documents between German and English. This new edition has been substantially revised to reflect the technological environment of the 21st century. The revised edition contains over 75,000 entries, of which over 5,000 are new, with many new entries in the areas of: * the internet and telecommunications * bio-technology and the new genetics * new developments in health technology Throughout this dictionary continues to benefit from the features that made the first edition so valuable, including accurate translations in British and American English and an attractive, durable and easy to use layout.

Somewhere above Equestria floats a cloud city completely hidden from sight by ancient magic. Legend says the hidden kingdom is home to a unique type of Pegasus, along with a mysterious treasure called the Halo of Cirrostrata. As soon as Daring Do learns about it, she can't get her head out of the clouds! She has to see it. But how? Many dangers await those who try to enter the forbidden city of Cirrostrata. Can the brave adventurer find the secret island in the air, even if it means flying blind? © 2016 Hasbro. All Rights Reserved.
