Understanding and Evaluating Research: A Critical Guide aims to sensitize students to the necessity of learning how not to defer to the mysterious authority of the experts, but rather to learn how to be a critical consumer of others' research, and to gain confidence in their ability to be producers of research. Sue McGregor shows students how to be research literate, and how to find, critique and apply other people's scholarship. This textbook is grounded in a solid understanding of the prevailing research methodologies for creating new knowledge (philosophical underpinnings), which in turn dictate problem posing, theory selection, and research methods (tasks for sampling, collecting and analyzing data, and reporting results).

Frankenstein; or, The Modern Prometheus is a novel written by the British author Mary Shelley. The first edition was published anonymously in London in 1818, and Shelley's name appeared on the revised third edition, published in 1831. The title of the novel refers to the scientist, Victor Frankenstein, who learns how to create life and creates a being in the likeness of man, but larger than average and more powerful. In modern popular culture, people have tended to refer to the Creature as "Frankenstein" (especially in films since 1931), despite this being the name of the scientist, and the creature being unnamed in the book itself. Frankenstein is a novel infused with elements of the Gothic novel and the Romantic movement. It was also a warning against the "over-reaching" of modern man and the Industrial Revolution, alluded to in the novel's subtitle, The Modern Prometheus. The story has had an influence across literature and popular culture and spawned a complete genre of horror stories and films. It is arguably considered the first fully-realised science fiction novel and raises many issues still relevant to today's society.

Filipino national hero Jose Rizal wrote The Social Cancer in Berlin in 1887. Upon his return to his country, he was summoned to the palace by the Governor General because of the subversive ideas his book had inspired in the nation. Rizal wrote of his consequent persecution by the church: "My book made a lot of noise; everywhere, I am asked about it. They wanted to anathematize me [to excommunicate me] because of it ... I am considered a German spy, an agent of Bismarck, they say I am a Protestant, a freemason, a sorcerer, a damned soul and evil. It is whispered that I want to draw plans, that I have a foreign passport and that I wander through the streets by night ..."

In her seventh volume of poetry, Adrienne Rich searches to reclaim/to discover/what has been forgotten, lost, or unexplored. "I came to explore the wreck. / The words are purposes. / The words are maps. / I came to see the damage that was done / and the treasures that prevail." These provocative poems move with the power of Rich's distinctive voice.
