Prepare plants and ripen the wood (to slow down the sap) by standing them outdoors in a light airy area in September and reduce watering. Defoliate plants. Naturally, by letting nature take its course as the first light autumn frost takes care of doing this for you, usually sometime during October.

Over wintering fuchsias - part 1, general guidelines

Plants requires that authors publish all experimental controls and make full datasets available where possible (see the guidelines on Supplementary Materials and references to unpublished data). Manuscripts submitted to Plants should neither be published previously nor be under consideration for publication in another journal. The main article types are as follows:
