Golden Rule: The Investment Theory of Party Competition ...

This is the argument of Golden Rule, a provocative, pungent history of modern American politics. Although the role big money plays in defining political outcomes has long been obvious to ordinary Americans, most pundits and scholars have virtually dismissed this assumption. Even in light of skyrocketing campaign costs, the belief that major financial interests primarily determine who parties nominate and where they stand on the issues—that, in effect, Democrats and Republicans are merely ...

Thomas Ferguson - Golden Rule: The Investment Theory Of ...

The Golden Rule is a guideline for the operation of fiscal policy. The Golden Rule states that over the economic cycle, the Government will borrow only to invest and not to fund current spending. In layman's terms this means that on average over the ups and downs of an economic cycle the government should only borrow to pay for investment that benefits future generations.

and the level (volume) of investment conjointly determine its steady-state levels of capital and income. But higher saving rate is not always a good thing.

Golden Rule of Capital Accumulation | Economic Growth

In economics, the Golden Rule savings rate is the rate of savings which maximizes steady state level of the growth of consumption, as for example in the Solow–Swan model. Although the concept can be found earlier in John von Neumann and Maurice Allais's works, the term is generally attributed to Edmund Phelps who wrote in 1961 that the golden rule "do unto others as you would have them do unto you" could be applied inter-generationally inside the model to arrive at some form of "optimum ...

Golden Rule: The Investment Theory of Party Competition ...

Golden Rule — The Investment Theory of Politics. Golden Rule presents a picture of today's political economy interpreted through the framework of the "Investment Theory of political Parties". The theory, first articulated in 1983 by Thomas Ferguson, is largely based on quantitative analysis of activity in the stock market and its relationship to politics--that is to say that "elections are moments when groups of investors coalesce and invest to control the state."
