Guardian Galactic Gladiators Book 9

What I got instead was a gritty, steamy, humorous, action packed sci-fi romance vaguely reminiscent of ages past in a setting that's a cross between Ancient Rome and modern day Las Vegas, a woman trying hard to overcome the horrors of her captivity and get back into shape so she can rescue other victims, a search for a hidden arena using a map where X would mark the spot, if only that part of the map wasn't missing, and an increasing body count as the enemy tries to gain control of her allies.

Guardian has a bit of everthing that I love
in a paranormal romance novel. Some
action, intrigue, aliens, strong sexy men,
capable strong women and an awesome
story of blossoming love and survival. I
absolutely cannot wait for the next
installment, Cyborg which releases next
month, April 2018.
