Assertive bargaining occurs from time to time in the US Congress. It became an important feature of legislative negotiations within the House Republican Party when, following the 2014 elections, a group of organized conservatives called the House Freedom Caucus regularly issued threats against its own party's leadership. Such behavior by an ideologically extreme bloc of lawmakers is not accounted for by existing theories of legislative politics. This Element posits explanations for why such threat-making might occur and what might increase its likelihood of success, then tests those explanations using the Freedom Caucus as a case study.

Chris Matthews has been playing "hardball" since the day he was born. From his first political run-in in the first grade to his years working as presidential speechwriter for Jimmy Carter and top aide to Tip O'Neill, Matthews grew up loving his country and dreaming of his chance to protect it. As one of the most honest, brash, and in-your-face journalists on TV, he has finally gotten the chance. The host of television's Hardball and bestselling author of such classics as Hardball and Kennedy & Nixon, Matthews is a political cop who insists on the truth and nothing but. In this latest work, Now, Let Me Tell You What I Really Think, Chris Matthews is at his brilliant, blunt, bulldogged best. From the Cold War to the Clinton years, Matthews gives the straight-up account of what it means to be an American. Matthews tells us about his "God and Country" Catholic school education in Philadelphia complete with Cold War air-raid drills and his early enthusiasm for politics. He shares with us his life's adventures: two years in Africa with the Peace Corps, the challenge of running for Congress in his twenties, and his three decades deep in the "belly of the beast" of American politics. Matthews has made his name as a razor-sharp journalist who cross-examines the politicians in Washington and takes on the Los Angeles and New York elite who view America's heartland as "fly-over country." In Now, Let Me Tell You What I Really Think, Matthews rallies those who "work hard and play by the rules" and celebrates the wisdom learned from a U.S. Capitol policeman more than twenty years ago, "The little man loves his country, because it's all he's got." A hard-to-categorize maverick with an uncool love for his country, Matthews gives an irreverent look at who we are and whom we trust to lead us.

Harvard professors Steven Levitsky and Daniel Ziblatt have spent more than twenty years studying the breakdown of democracies in Europe and Latin America, and they believe the answer is yes. Democracy no longer ends with a bang—in a revolution or military coup—but with a whimper: the slow, steady weakening of critical institutions, such as the judiciary and the press, and the gradual erosion of long-standing political norms. The good news is that there are several exit ramps on the road to authoritarianism. The bad news is that, by electing Trump, we have already passed the first one. Drawing on decades of research and a wide range of historical and global examples, from 1930s Europe to contemporary Hungary, Turkey, and Venezuela, to the American South during Jim Crow, Levitsky and Ziblatt show how democracies die—and how ours can be saved. Praise for How Democracies Die “ What we desperately need is a sober, dispassionate look at the current state of affairs. Steven Levitsky and Daniel Ziblatt, two of the most respected scholars in the field of democracy studies, offer just that. ” —The Washington Post “ Where Levitsky and Ziblatt make their mark is in weaving together political science and historical analysis of both domestic and international democratic crises; in doing so, they expand the conversation beyond Trump and before him, to other countries and to the deep structure of American democracy and politics. ” —Ezra Klein, Vox “ If you only read one book for the rest of the year, read How Democracies Die. . . This is not a book for just Democrats or Republicans. It is a book for all Americans. It is nonpartisan. It is fact based. It is deeply rooted in history. . . The best commentary on our politics, no contest. ” —Michael Morrell, former Acting Director of the Central Intelligence Agency (via Twitter) “ A smart and deeply informed book about the ways in which democracy is being undermined in dozens of countries around the world, and in ways that are perfectly legal. ” —Fareed Zakaria, CNN
