— Eric Cressey (@EricCressey) ... I use a wide variety of positional breathing drills as part of The High Performance Handbook program, so this is really more of a "category" than a specific exercise. When you put athletes (especially those with more "extended postures) into a more flexion biased position and encourage them to full exhale ...

Obviously, these drills lower the injury risk, but taking it a step further, these are options that allow us to create a great training effect with minimal loading. This exercise of the week (from The High Performance Handbook video library) is a perfect example - and it also affords some great benefits in terms of building mobility.
