Peanut Butter Cookies. Dogs will gorge on peanut butter like a whale.

Homemade Dog Food Recipes

Home Cooking for Your Dog is the first holistic cookbook for dogs to include recipes for cooked meals, treats, and the raw food diet—a big trend in the pet industry. User-friendly, chop-licking recipes like Fido's Fishcakes, Potluck Polenta, and Peanut Butter and Coconut Cakes call for healthy ingredients you can find in your local grocery store (or may already have at home) to create balanced, nutritious meals for a healthier, happier dog. Headnotes provide nutrition information, cooking tips, and anecdotes from the author about her own four dogs to help readers transition their dogs to a homemade diet. Illustrated with a combination of irresistible color photographs of dogs and humorous line art, the book is a must-have for dog owners everywhere. A portion of the proceeds will support animal rescue. Praise for Home Cooking for Your Dog: "For those who have grown weary of mass-produced dog food, Home Cooking For Your Dog contains healthy recipes and diet advice for dogs." —LA Times' Jacket Copy blog "Get your puppy the gift of a nutritious, home made meal." —Ladies' Home Journal "It's chock full of all sorts of goodness your dog will gladly gobble down." —Modern Dog magazine

"An eight-week program to optimum health for dogs and cats featuring quick and easy recipes for homecooked meals and treats, a healthy introduction to natural supplements, and a practical guide to grooming and play"--Provided by publisher.

There's a reason why pets beg at your table—they want real food! Not the kibble manufactured by pet food companies, drained of nutrients. If we are dedicated to preparing healthy meaals for ourselves in the comfort and safety of our own kitchens, shouldn't we be doing the same for our pets? Dinner PAWsible is a collection of more than fifty cat and dog food recipes that will teach you how to whip up a fresh, balanced meal for your hungry critters. Written by a veterinarian certified in food therapy and an advocate for pet food safety, these recipes are also based on the National Research Council requirements for dogs and cats. Recipes for Dogs include: Turkey & Oats Lasagna Beef, Egg & Rice Chicken, Shrimp, and Veggies Salmon & Cabbage And more! Recipes for cats include: Turkey Meatloaf Turkey & Salmon Hash Steak & Eggs Fish Salad Gumbo And more! Debunk the myth that pet food companies are the only entities qualified to feed your pets. Instead, beat pet obesity, disease, and sickness by reaching into your pantry or refrigerator, turning on the stove, and starting to cook yourself! Making food at home will also decrease those exorbitant pet food bills. It's time to go back to the table. Know exactly what your pet is eating and serve it a variety of real food that it deserves. Be a responsible pet parent by balancing your pet's diet and pleasing its palate. Cooking for your pet is paws-ible!

Red State Blue State White House is a historical look at the Electoral College vote spanning over 150 years. It takes the reader on a state by state, region by region journey, along the way highlighting the nuances of the system. Interwoven into the journey are a re-created election, a mythical match-up and our present political reality. The book provides a great guide for following and predicting the 2008 race for the White House.

Whatever your reasons for starting to prepare meals for your canine companion, this book brings you everything you will need to know in order to cook and prepare healthy, delicious home cooked meals for your best friend.Just as humans have switched from healthy, natural and traditional diets to processed and mass-produced foods, we have made the same choices on behalf of our dogs. We are feeding our dogs the same "fast food" day in and day out, and this limits their nutritional intake. Just as people need variety in their diet, so do dogs. After all, wouldn't you get tired of having spaghetti as your only meal for years on end?Luckily, there is a better way that is both simple and effective... a fresh food diet (either store-bought or homemade). Instead of eating biologically inappropriate foods full of questionable meat sources and additives that can cause health problems, your pup can enjoy simple freshly cooked meals. You might be wondering... won't this homemade cooking take a long time? Or isn't this more expensive than buying a bag of food at my local store? This book will guide you through the entire process and you will find preparing healthy food for your dog is easier and less expensive than you think

Many dog parents, including breeders and competitors, believe that feeding a raw food diet has improved their dogs' health, performance and longevity. Learn how to source, prepare and feed your dog simply, economically and efficiently.

As a holistic veterinarian and scientist, Dr. Gary Richter helps dog and cat owners to navigate the thicket of treatment options and separate the fact from the fiction. He wants us to use what actually works, not just what Western science or alternative medicine say "should" work. This multifaceted approach to health is known as integrative medicine. Dr. Richter examines traditional medicine from many cultures alongside modern medical techniques, describing the best of complementary care and the best of conventional veterinary medicine. Every treatment he recommends has the backing of scientific research or years of successful outcomes in his clinical practice. After explaining the treatment, he offers specific recommendations for an integrative approach to common diseases, including allergies, skin conditions, diabetes, heart disease, and cancer. A holistic approach to health includes nutrition, as it sets up the foundation for your pet's health. Dr. Richter cuts through the hype in the pet-food world and explains how to choose the best commercial foods and supplements, and even includes both raw and cooked dog- and cat-food recipes for general diet as well as to treat specific needs. He also explains how we can use the right foods and supplements to "hack" the body's processes, including the immune system.
