~~Honda Stream — Wikipedia~~

For first generation Honda Stream, two 4-cylinder engines were available: a 1.7-liter D17A and a 2.0-liter K20A. In 2006, second generation Stream was launched, where the great K20A engine was unavailable, but other two reliable engines were offered instead. These were 1.8-liter R18A and 2.0-liter R20A. Both have the inline-4 configuration.

Our review on Honda Stream. Since Honda Odyssey was released in 1994, the minivan boom rose in Japan and minivan established a separate category in the market. Now, minivan has a high share in the sales, but this data is predominantly made up by large minivans, whose body size is similar to the size of a standard-sized passenger car.

The problem with engine knocking is that it can be caused by quite a few issues. This can make a diagnosis difficult. We've outlined some of the most common issues that could cause your Stream to knock below. Engine Knocking Causes: Honda Stream. It's never good when the engine knocks.

~~Honda Stream: Engine Knocking ? Causes & Diagnosis ...~~

If your Honda check engine light stays on after you start the engine, it means the On-Board Diagnostic (OBD) system has detected a problem with the engine, transmission, or the emission system. A steady check engine light means there is a present issue. Continue driving with caution if you don't notice any performance issue.
