Today, the one-car garage in Palo Alto that housed their first workshop is a California historic landmark: the birthplace of Silicon Valley. And Hewlett-Packard has produced thousands of innovative products for millions of customers throughout the world. Their little company employs 98,400 people and boasts constantly increasing sales that reached \$25 billion in 1994. While there are many successful companies, there is only one Hewlett-Packard, because from the very beginning, Hewlett and

Packard had a way of doing things that was contrary to the prevailing management strategies. In defining the objectives for their company, Packard and Hewlett wanted more than profits, revenue growth and a constant stream of new, happy customers. Hewlett-Packard's success owes a great deal to many factors, including openness to change, an unrelenting will to win, the virtue of sustained hard work and a company-wide commitment to community involvement. As a result, HP now is universally acclaimed as the world's most admired technology company; its wildly successful approach to business

The award-winning historian provides a provocative new analysis of the Battle of the Alamo—including new information on the fate of Davy Crockett. Contrary to legend, we now know that the defenders of the Alamo during

the Texan Revolution died in a merciless predawn attack by Mexican soldiers. With extensive research into recently discovered Mexican accounts, as well as forensic evidence, historian Phillip Tucker sheds new light on the famous battle, contending that the traditional myth is even more off-base than we thought. In a startling revelation, Tucker uncovers that the primary fights took place on the plain outside the fort. While a number of the Alamo's defenders hung on inside, most died while attempting to escape. Capt. Dickinson, with cannon atop the chapel, fired repeatedly into the throng of enemy

cavalry until he was finally cut down. The controversy surrounding Davy Crockett still remains, though the recently authenticated diary of the Mexican Col. José Enrique de la Peña offers evidence that he surrendered. Notoriously, Mexican Pres. Gen. Antonio López de Santa Anna burned the bodies of the Texans who had dared stand against him. As this book proves in thorough detail, the funeral pyres were well outside the fort—that is, where the two separate groups of escapees fell on the plain, rather than in the Alamo itself.

They were hardly down when the "Pisangs" (French peasants) came running toward them from every direction. They managed to get into a nearby woods by beating a hasty retreat. Behind them they heard the yelling of the men and women. The woods was surrounded, and they had to hide till night fell. Then they escaped into the Argonne Forest, under cover of darkness although fired on a number of times. Here they spent five days, avoiding French troops.
