Have you ever felt joy--in your soul? In this article, the author addresses the origin of joy, how joy itself is encoded in the light, and how each one of us can feel this joy when we understand the procreant balance that comprises the nature of light. Author Bio: Christopher Alan Anderson (1950 -) received the basis of his education from the University of Science and Philosophy, Swannanoa, Waynesboro, Virginia. He resides in the transcendental/romantic tradition, that vein of spiritual creativity of the philosopher and poet. His quest has been to define and express an eternal romantic reality from which a man and a woman could

together stand in their difference and create a living universe of procreative love. Mr. Anderson began these writings in 1971. The first writings were published in 1985. On a personal note, when Mr. Anderson was asked to describe the writings and what he felt their message was he responded, "Spiritual procreation. Mankind has yet to distinguish the two sexes on the spiritual level. In this failure lies the root of our problems and why we cannot yet touch the eternal together. The message of man and woman balance brings each of us together in love with our eternal other half right now." This manuscript is not intended by no means to talk about me, though I have been through the tribulations and had faced deaths on too many occasions to mention a few; its sole purpose is to glorify and acknowledge the omnipresence and omnipotence of the Lord Almighty, God the Father, the Son of God and the Holy Spirit of God, and also to admit that the light shines for specific reasons, though calling the Supreme Being through different names, will surely generate different results. What about the Master of Life, and there is another "entity" when he is around everything is in tune, and everyone wants to charm him. The Master of the Universe through him things and functioning are just different; you are forced into doing something and taking actions. When the Morning Star is fully activated around you, you cannot help it or do otherwise "but shine." The Son of God, the Savior of the world, is truly alive and

well, and he is glorious . . . if today was another day I would have expressed myself differently about him. Dr. Wisner Joseph Philemy, MD, multicultural background, trained in the field of medicine, psychiatry to be more specific, wonders were happening in and out of the hospital and the Lord Almighty has been walking with us in a sense just like Moses or Prophet Elijah; we are yet to know our spiritual identity, though we are identified as an "angel"; random acquaintances have transformed just by being in contact with our virtues, or because we were too quick in releasing those blessings, or enlighten somebody. In most occasions, those people would shine at our expense, or nothing would change for us, and everything for them. Brain have been transformed, people have been converted into angelic types, or at least with angelic prowess. By the time you read some pages of this manuscript, you would find

Told through the eyes of an observant and resilient boy, the book begins with the German seizure of Athens in 1941. Grim events of war, displacement, and exile never extinguish the curiosity – even the joys – of his childhood. Compelling writing mixes reality and fantasy to concoct a memorable tribute to the human spirit, from Asia Minor to Greece to Canada. — Douglas Babington, the Bivouac Prayers. “The ugliest phases of the Civil War were just beginning. It would pit household against household, village against village, and sometimes, brother against brother. The blood-letting would go on and on. The adults seemed to sense that all of this was going to

happen and they only spoke in muted tones.” — Tasouli With curiosity and humor Tasouli tells us about his life, including stories about his cat the Resistance hero, the intricate relationships between a young Jewish physician, German officers, and Greek partisan communists and their British captives. A strange character appears in his dreams, sometimes supportive, sometimes terrifying, and they develop a strong bond. Occupation Child is ultimately about how a child views hunger, language, politics and love.

artist. Foregrounding Loy's critical interrogation of Futurist, Dadaist, Surrealist, and "Degenerate" artisthood, and exploring her poetic legacies today, *Curious Disciplines* reveals Loy's importance in an entirely novel way. Examining the primary texts produced by those movements themselves—their manifestos, magazines, pamphlets, catalogues, and speeches—Sarah Hayden uses close readings of Loy's poetry, prose, polemics, and unpublished writings to trace her response to how these movements wrote themselves, collectively, into being.

Character was funny, quirky and so unlike what a proper lady should have been. Sydney is just the type of strong character I love to see in a heroine. Nicolas was strong, protective and oh so yummy. Nicolas is a man that has been hurt on a very primal level and he does all he can to protect his heart, until Sydney comes along. I don't want to give away too much of the book because there are so many interesting and unexpected twists and turns. The romance between Sydney and Nicolas was certainly one of imperfection. They simply sizzled together. The ending is amazing and will definitely leave you wanting to buy the second book in the series. A Woman of Choice is certainly a book that is now on my keeper list. Kris Tualla writes an intriguing historical romance that is sure to sweep you off your feet. A must read!-Val Pearson
