For each level there are 20 video lectures on two DVDs in which James Nance stands in front of a whiteboard and tells you about logic. He makes frequent use of the whiteboard. He has a pleasant voice with no discernible weird quirks. Most importantly, he explains often terribly difficult ideas thoroughly and carefully.

Introductory & Intermediate Logic - Exodus Books

Formal logic is the science and art of reasoning well. As a science, logic includes discovering and identifying the patterns or rules by which we reason. As an art, logic teaches how to follow those rules, without abusing them in a wooden (and unreasonable) way. About sixteen centuries ago, Augustine said this about the science of logic:
