The ISA Certified Arborist certification has long been recognised as a valuable status for professionals wanting to make the transition from ' tree surgeon ' to ' arborist ' . As my venerable colleague Paul Smith puts it, ' a tree surgeon knows where and how to cut but an arborist knows why and what impacts the cut will have on the tree ' .

'Up By Roots is a manual for landscape architects, architects, urban foresters, and planners who are designing, specifying, installing and managing trees in the built environment. Part One discusses basic soil science and tree biology and their relationship to healthy trees. Part Two explains the process of planning and implementing landscape designs to ensure healthy trees that can improve the quality of places where people live, work and play. The book contains numerous illustrtions and data in graphic form to provide guidance in the design of healthy soils and trees.'--Pub. desc.

'An advanced training series that requires the user to have already mastered basic climbing skills (or aerial lift operation) and cutting techniques. This series begins with the basic methods for hardware selection and use, knot tying, and limb removal, and advances to compound rigging techniques and methods for removing heavy wood.'--Back cover of accompanying book.
