The bottom line is that organizational innovation is a simple innovation equation. And the innovation equation isn ' t about either having creative people or creating a workplace that fosters innovation – because for organizational innovation, both must be present. The innovation equation is: People + Context = Innovation.

Blending Operational Excellence with Innovation. Focusing on excellence in operational performance is the primary focus of most organizations, but it is a different area of skill, type of conversation, mood and energy than innovation conversations. These two skill areas overlap more easily when the operational work includes design, strategy, and planning, but a full focus on performance often leaves professionals unfamiliar with innovation conversations.
