"During a remarkably long career that began in the age of W.G.Grace and ended in the era of Don Bradman, Hobbs scored more first-class runs and centuries than any other player. His elegant style and prodigious feats changed the art of batting. His innate dignity and modesty transformed the standing of professionals. Surprisingly, there has never before been a comprehensive biography of Hobbs. Now, acclaimed historian Leo McKinstry tells Hobbs' story in full. It is a moving tale, full of drama and incident, charting his rise from a poverty-stricken background in Victorian Cambridge to become England's best-loved sportsman and the first professional cricketer to be knighted. Using wide ranging research, including Hobbs' own correspondence and interviews, McKinstry examines every aspect of his life, from shy, gentle personality to his record in the First World War, from the brilliance of his batting technique to his involvement in some of cricket's greatest controversies, such as the notorious Bodyline tour of 1932 33. With its wealth of original material, this in-depth biography is an important addition to cricket literature."

Designed for students, this volume explores the expression and construction of art, and discusses the creative and technical processes of art.

novelist. When a casino robbery in Atlantic City goes horribly awry, the man who orchestrated it is obliged to call in a favor from someone who's occasionally called Jack. While it's doubtful that anyone knows his actual name or anything at all about his true identity, or even if he's still alive, he's in his mid-thirties and lives completely off the grid, a criminal's criminal who does entirely as he pleases and is almost impossible to get in touch with. But within hours a private jet is flying this exceptionally experienced fixer and cleaner-upper from Seattle to New Jersey and right into a spectacular mess: one heister dead in the parking lot, another winged but on the run, the shooter a complete mystery, the \$1.2 million in freshly printed bills god knows where and the FBI already waiting for Jack at the airport, to be joined shortly by other extremely interested and elusive parties. He has only forty-eight hours until the twice-stolen cash literally explodes, taking with it the wider, byzantine ambitions behind the theft. To contend with all this will require every gram of his skill, ingenuity and self-protective instincts, especially when offense and defense soon become meaningless terms. And as he maneuvers these exceedingly slippery slopes, he relives the botched bank robbery in Kuala Lumpur five years earlier that has now landed him this unwanted new assignment. From its riveting opening pages, Ghostman effortlessly pulls the reader into

Few sporting records capture the imagination quite like that of the highest individual score in Test cricket. It is the blue riband record of batting achievement, the ultimate statement of stamina and skill. From Charles Bannerman, who scored 165 for Australia against England in the inaugural Test match in 1877, to Brian Lara, who made 400 not out for West Indies against England in 2004, the record has changed hands ten times. Chris Waters' *The Men Who Raised the Bar* charts the growth of the record through nearly one hundred and fifty years of Test cricket. It is a journey that takes in a legendary line of famous names including Sir Donald Bradman, Sir Leonard Hutton, Sir Garfield Sobers and
